Child Meets Terrible Death

Katie McGuire, Passburg, Victim
To The Flames

A terrible fatality occurred at Passburg on Monday afternoon, which resulted in the death of little Katie McGuire, aged 13 years. About 3 o'clock the mother left the house to go to town from the ranch which is about two miles north, the little girl having been outside on the ranch at the time shortly after the mother's departure, it is supposed the little girl entered the house and started a fire which spread to the building soon filling the place with flames so that the child failed to make an exit. Mr. Pearson, working on a ranch a short distance away, was first to notice the flames and immediately repaired to the scene. Not seeing anyone moving around there he presumed the mother and child had both been out town, and as the flames had then gained great headway, it was useless to attempt to save anything. After the building had been reduced to ashes the little girl was discovered frightfully charred beyond recognition. The body was removed by William Duncan. The mother arrived on the scene shortly after the fire occurred and was rendered almost frantic over the sudden and terrible fate of her little child.

Coroner Plunkery was immediately summoned and on arrival after the necessary examination decided that an inquest was not necessary, as the circumstances surrounding the sad affair were of a purely accidental nature.

At the time of the accident, the father was working in the mine.

In The Feminine Arena

A stirring six round bout was witnessed near Cornwall street a few evenings ago. The contestants were a colored lady and a woman from Newfoundland. It was a bitter fight while it lasted, and there was nothing of the rough and tumble about it. Not even a hair was pulled, and in the clinches it was hit with one arm free and a clean break away. Twice did the dusky one floor her opponent with right arm jabs, but the latter every time responded. The fight was fairly even until the opening of round six, when Term Novan floored for the count. Now the next bout is likely to be in the police court. Another fight between a colored lady and a white woman took place since the first one, and in close proximity to the six round affair. The white woman was accused with stealing jam from a neighbor's cellar, and when she called her accuser a nasty crier, the fight began. As in the former bout, the colored lady defeated her opponent. And this, too, will mean lawsuit.—North Sydney Herald.

Don't miss the twenty-round boxing contest between Freddie Bealls and Louis Britano.

Happenings in and Around Frank

Saturday was a fairly busy day here, the pay roll amounting to in the neighborhood of \$29,000.

Dr. J. W. MacKay, who had been attending the medical convention at Edmonton, returned to town this week.

Rev. W. T. Young will officiate at the Institutional church, Coleman, both morning and evening on Sunday next.

Rev. J. G. G. Bompas, of the Institutional church, Coleman, will occupy the pulpit at Knox Methodist church on Sunday night next.

Several promoters of the new clay products company were in town this week, looking over the proposed location of the new works.

The contract for the removal of Frank to the new townsite is still under consideration, and it is hoped that definite terms will be arrived at in a few days.

H. H. Cromwell, of the Canadian Credit Men's Association, Calgary, arrived in town on Monday, to make arrangements for a big auction sale of Lang's stock. The sale took place on Wednesday afternoon and was kept up until 10 p.m., during which time a large quantity of goods was disposed of.

Coun. McLeod at MacLeod

This obscure hamlet was honored last week by a fleeting visit from Coun. Archie McLeod, the stormy petrel of the Blairmore town council. Coun. McLeod took occasion to express his disapproval of the action of the MacLeod council in carrying an option on their debtors.

It is not all antagonism with the Blairmore council either, as Council McLeod admitted.

"It has been three months since we had a council meeting," he told Coun. McLeod and Mayor Fyfe are ranged on opposite sides on the question as to where the proposed new fire hall is to be located. The council authorized the purchase of two lots in the centre of the business part of the town, but Mayor Lyons has refused to sign the check for the purchase price of the lots. The vendor has taken his claim into court, and is being represented by Campbell & Pavey.

The council passed a motion that no defence be filed, but the Mayor on his own responsibility has filed a defence.

The case will come up at the fall term of the supreme court. Councillor McLeod says that Blairmore is going ahead with wonderful strides.

"If you don't believe me, ask Mike Ross," were the convincing words with which he terminated a eulogy of his home town.—MacLeod Spectator.

Carnegie's Gifts

Sixty thousand dollars is not sufficient inducement to the members of the board to carve the name of Andrew Carnegie on the slab of stone over the entrance of a library that would meet the requirements of the city of Edmonton. Accordingly, they adopted a resolution at their last executive meeting declining the offer and conditions and turned the matter over to A. G. Harrison, a member of the board of commissioners, for final disposal. Mr. Carnegie's original offer was based upon a population of about half of what it is today. When informed that the city has a population of 53,333, according to a census completed on July 6, Mr. Carnegie replied that he felt compelled to take the figures compiled a year ago by the Dominion enumerator and would limit his grant to \$60,000. The library board has recommended to the commissioners that they consider the question of submitting a by-law to the ratepayers for the raising of sufficient funds to construct the first unit of a municipal owned public library.

Over ten thousand harvesters are at present enroute to the west.

Notes From Burmis

R. T. Fitzsimmons was a Blairmore visitor on Sunday.

L. C. Stevens was a business visitor to Blair last week end.

R. Mitchell and wife were week end visitors to the Pittsburg of Canada.

Mrs. Geo. Hope and daughter are visiting with friends in Lethbridge this week.

Ben Beranyi gave a little pink tea to some of the boys on Sunday, which was very much appreciated.

The new C.P.R. depot is nearing completion, and is expected to be finished in the course of a week or so.

The new school is practically completed, and the boys are contemplating holding a social and dance on the opening occasion.

Uncle Billy is causing quite a commotion in town this week by his roping of colts on "Black." Uncle is figuring on going to Calgary to the stampede, and says he will show those tenderfoot stunts.

The Order of Guzak met again this week, and the following is a verbatim report of the discussion which took place:

Secretary has received a communication that the Force-Astor \$3,000,000 baby was born in the usual way, without a rag to its back, and not a penny in its pocket. That it is fed in light ops, as every other baby does, and has similar tastes and habits. Not so very wonderful after all.

The Order decries, that our representative, who gave the C.P.R. so valuable lessons in the art of switching box cars, in such a way that the mines could be kept running, should so soon be forgotten. Already the nightmares of shortage upon us, and we wonder why the C.P.R. can get away with it so easily, as some of our large operators must feel the pinch of scolding charges under reduced outputs.

We would say that they are afraid to kick, but we have a hunch that they wish to take no chances in offending their best customers, and getting a turn-down. What they may admit verbally and what they put in black and white, are two different things.

One prohibition is that there is no rough difference between diplomacy and boldness, and that business will never expand in The West, until the Jim Hill line are operating in healthy competition with the old staid.

Any person who is if he is not afraid to express it on this subject, will be gladly welcomed by the Order.

We hear, as our president anticipated, that his "Nibs" and the other experts do not agree over the Frank alkali business. Our counties is quite ready to report on confirmation of the above.

The members desire to express their thanks for the kind attention bestowed on all descriptions of "rings" by central. The silver voice asking for numbers, has made the single young men around, wonder why they are single.

We shall hail with delight the coming of the structural material for the Burnie bridge. Anyone seeking political support at the next election, please note: "This matter is already in the hands of the department."

All express our deepest sympathy with our old friend Mr. P. McGuire in his sad bereavement and loss, and the Order of Guzak have opened a subscription list on his behalf.

The Order desires to extend a cordial invitation to the Blairmore F.C. to visit Burnie, and play off the game that is our due. We sympathize with them in their troubles, and regret that their effort was so rewarded by the transfer of the cup to the team of the "Sporty Six."

Real estate agents are moving rapidly from place to place in The Pass, in their ardent endeavor to make money for the unsuspicious.

We have been offered lots in the distant sub-division of Passburg off Hillcrest at a remarkable low figure, but all our money has gone into the "Mutual Gas Scheme."

Commercial Education

Commercial education is to receive full attention in the public schools of Edmonton, beginning next month, and in carrying-out its program the school board will engage an expert, who is to receive an initial salary of \$7,000 a year. The board does not demand that the appointee shall be a university graduate. What is desired is man of thorough understanding of business education coupled with the ability to impart this knowledge to others. A graduate of a university, possessing the same qualifications, will have the preference. Edmonton's school population has increased from 1,144 to 8,695 the last twelve months and should be fully 4,000 at the beginning of the fall term. W. G. Carpenter of Calgary, has been appointed superintendent of the high school.

Happenings in and Around Bellevue

Mrs. Nab visited Fernie over Sunday. Mrs. George Davis is visiting in Fernie. Harry Shearer is laid up with mumps.

Joseph Elison is working at Police station on the mine on Sunday.

Jack Oliphant is working at the Southern hotel.

Work is progressing on the Union Bank building.

Mrs. Gill Cousins spent Tuesday in Blairmore.

Mrs. Bureau, of Fernie, is visiting Mrs. G. Cousins.

Mrs. Christie and Mrs. Ashmon spent Monday at the mine on Sunday.

Charles Nelson, M.P.R., with Mrs. Nelson, is this week with Mrs. Nelson at the mine on Sunday.

Mr. Rochester got his leg badly hurt at Hillcrest mine on Tuesday morning.

Mr. Bennett, late editor of the District Ledger, spent the week end in the camp.

The local football team have an invitation to play at Macleod sports on Labor Day.

Mr. Johnston, the local carpenter, will move with his family to Calgary in a few days.

The land have added a large bus instrument which greatly increased its efficiency.

An accident on the loading machine at the tipple on Monday night paralyzed shipping for the week on Tuesday.

Mr. Irwin will preach in the Methodist church on Sunday evening next on "The Essential Character of True Religion."

The hand gave an open air concert on Sunday afternoon which was enjoyed by a large number of the local music-lovers.

Pill Hart has sold out his butcher business to P. Burns. Mr. May, of Lillie, is managing the store for the latter firm.

One of our Blairmore friends is laid up in the hospital with a fractured jaw, caused by an accident in the mill last week.

Quite a number of Blairmore sports went to Blairmore on Saturday night to take in the fight. Most of the time was spent in avoiding the slide.

Mr. Wilkinson organized for the truck sale of the Council of E.C., delivered an address on the present labor situation in the Socialist Hall on Sunday evening. A large number listened to the address.

The Bellevue football team will contest against Michel for the honors of The Crown's Next Pass League on Saturday next. It is likely that a large number of the local enthusiasts will go up to boost for the team.

The Ramblers' club returned from their camp at Gowas' Next Lake on Saturday and all reported a splendid time, which was all too short. And they are already looking forward to a similar outing next week. The next ramble will take place next Saturday when the boys intend to do some exploring among the mountains.

At the trial of "Michie" Ross held at Macleod last week the Mounted Police failed to produce evidence enough to procure a conviction in the charge of their duty was laid against him, and "Michie" was acquitted. This was evidently a case where an intended joke appeared like a serious offense and we are pleased that the judge took such a common-sense view of the matter.

Bellevue children have heard the summons of their teachers, and are all back to school again. Much dissatisfaction is felt that the new building which we hoped would be ready for the school opening has not yet materialized. But the trustees report that the delay has been caused by circumstances over which they had no control and that they are having no stone unturned to have the new school up as speedily as possible.

Everyone are looking forward to the coming combat between Freddie Bealls and Louis Britano, for the featherweight championship of Western Canada. The exhibition given by these two young pug about a month ago was sufficient to ensure them a crowded house on this occasion. The event takes place at the Socialist hall on the afternoon of Monday, September 2nd.—Labor Day—the preliminary bouts to start at 2:30 and the main feature at 4 p.m. Tickets are for sale at Cole's pool room, the Southern hotel and by members of the committee. Prices same as last bout, \$1.00, \$1.50 and \$2.00.

"Were all medicines as mercurious as Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes M.E. Gebhardt, Oriole, Pa. There is nothing better. For sale by all druggists.

Frank, Alta., Fri., Aug. 23, 1912

The big pay day last week gave new impetus to business life. Never before has there been such a rushing trade done by the stores of this section of The Pass, and conditions generally are of the most encouraging nature.

Some "meal tickets" were handed around, inviting tertiophorens to a ball in Blairmore this week. The printing was done out of town and the affair received its due share of publicity. "S-o-a-k-e-d" is the term now used to describe the feelings of the parties who suffered from the experience of defying the home industry.

It is regrettable that the government will insist upon patching the old road to Coleman and other places where they unnecessarily course up the hill-sides, while a comparatively level and straight right-of-way can so easily be found where a road could be constructed at little more cost than that of patching the old undesired route.

Last week we made reference to the matter of home investments, and repudiated the idea of ignoring the home advantages and investing our "surpluses in outside propositions. As a matter of fact one can hardly be blamed for sending their money out of town when we realize that it is impossible to buy some property owing to the existence of a caveat, which prevents anyone from purchasing or procuring a clear title to property in certain parts of the town. Steps should be taken by our citizens to arrange with the Dominion government whereby that body might take the matter in hand, raise the caveat, and after the rightful owners to the townsite have been decided upon, to pay to them such monies as may have been collected for sales.

General Booth

Passes Away
General William Booth, head of the Salvation Army, passed to his rest on the night of August 20th, at the ripe old age of 83 years. It will be remembered that a long time since the General lost sight of both eyes, and in spite of this affliction, declared that he would carry out his plans to visit Canada and the United States. The whole world now mourns one of the greatest evangelizers in history.

The August Rod and Gun

An interesting description of Gatta Day, Newfoundland's great national summer-fete day is contributed to the August issue of Rod and Gun, published by W. J. Taylor, Limited, Woodstock, Ont. by W. Lacey Amy. Following this one is interested in the reproduction of the pictographs or rude paintings made by the Kootenay Indians on rocks of their native Province and in their story as told by Chas. D. Ellis. The same author also contributes the story of a trip or Toby Glacier and up Mt. Gleason. The illustrations accompanying which help to make the reader forget the hot summer weather. Messrs. Croft, authors of the Culture of Black and Silver Foxes, have still another article in the August number which, as usual, is well illustrated. Many other articles deal with summer vacations in Canadian territory.

Happenings in and Around Blairmore

Mrs. L. H. Putnam is attending the Lethbridge fair.

Mrs. C. J. Pegg returned Tuesday from a trip to the coast.

Mrs. Patmore returned if it was from a short visit to Calgary.

Rev. Fr. Sammut paid a visit to Pincher Creek on Wednesday.

Dr. Wright, dentist, of Pincher Creek, spent Saturday in town.

F. M. Thompson Co. will be open until 8:30 o'clock this week only.

We are pleased to see Thomas Frayer around again after a short illness.

Mr. and Mrs. R. M. Briscoe went to Lethbridge Tuesday to attend the exhibition.

Mrs. Thos. Frayer returned last week from a visit to friends in Medicine Hat.

George Brown has returned from a three months' trip to the maritime provinces.

The fortnightly meeting of the city fathers will take place on Monday night next.

Mrs. E. Latta, of Cowley, came to town on Monday to spend a few days with her sister.

Mr. Breckenridge, of the B. & L. Coal Company, Lundbreck, was in town on Saturday last.

W. Howie, of Pettit & Howie, Cowley, paid a business visit to Blairmore on Tuesday.

Rev. Dr. Ferguson, superintendent of Presbyterian ministers, paid a visit to Blairmore on Monday.

McLaren's Mill is running full swing these days. At present their yards represent great enterprise.

V. Hawkins and J. Hughes, of Cowley, spent Sunday in town, admiring the scenery, e-t-c-e-t-e-r-a.

Work on the dam at York Creek is being rushed and will be completed in the course of a week or two.

Two large steel spans and fittings have arrived for the C.P.R. bridge over the Old Man river near York Creek.

Mrs. Billie and baby, of Moose Jaw, are at present visiting friends in Blairmore and are the guests of Mrs. Pinkney.

Mr. and Mrs. Schofield, of Pincher Creek, spent Tuesday in town, the guest of Mr. and Mrs. Samuel Berry.

Miss M. Smith, who spent several days with friends in town, returned to Lethbridge, via Cowley, on Sunday night.

A number of young people were the guests of Rev. and Mrs. J. F. Hunter on Thursday last, where an enjoyable evening was spent.

A. W. Robbins, who is in charge of road repairing between Blairmore and Coleman, has made some much needed improvements in the main highway.

Rev. Maclean Beaton returned from Banff, where he had been attending the summer schools and took charge of the services at the Presbyterian church on Sunday.

Two shipments of Wild Rose Creamery butter in every week. Some as good, but none better. Make us prove it. Our price 55c per pound.—Alberta Trading Company.

Paul Pollock, a Polish laborer, died at McLaren's Mill on Sunday last, after a brief illness. Pollock was a middle aged man and leaves a wife and several children in Russia.

The 20-round boxing contest to be given at Bellevue on Labor Day, September 2nd, promises to attract great interest. The day being a general holiday, the match has been arranged to take place in the afternoon, the preliminary to start at 3:30 sharp and the main event at 4 p.m., so that parties from points west can make convenient railway connection.

H. G. Bigelow, F. E. Hinds, Jos. Montalbetti, J. R. Irwin, F. W. Dought and W. J. Partlett took in the ribs at Lethbridge on Wednesday.

The C.P.R. bridge carpenters have commenced building the moulds for the concrete work on the new bridge crossing the Old Man river east of McLaren's mill.

Thompson & Co.'s big sale, which started on Thursday last, is proving a banner success. Mr. Smith, who is in charge of the sale, states it is the most successful he has ever conducted.

Saturday was the busiest day in the history of the Blairmore stores. At night the stores could not handle every customer and a great many had to go away without being served.

A number of Oddfellows went to Lethbridge Wednesday, where they received the encampment degrees. An encampment lodge will be organized in Blairmore in the near future.

Cutting is in full swing in the Cowley district, and if present weather conditions continue the harvest will be a record one. Crops in Cowley section are believed to be the best in the Dominion.

The proprietors of the Alberta hotel have taken fancy to the concrete sidewalk surrounding the Cosmopolitan hotel, and have decided to place a similar walk around their hotel at the corner of Fifth avenue and Victoria street.

The ladies of the Presbyterian church intend giving a lawn social and supper on the grounds near the mission hall, on Saturday evening, from 5 to 9 o'clock. Ice cream will also be served. Tickets, 50 cents for adults, children 25 cents. Bellevue band will be in attendance.

Miss Fulton, of the Blairmore teaching staff, who had been enjoying the summer holidays at different points in Alberta and British Columbia, returned to town from Cowley on Monday to re-enter upon her duties next week.

Homes for Neglected Children

The Department of Neglected Children at Edmonton, are anxious to find homes for a number of infants varying in age from two months to a year.

Two little girls, healthy and attractive, are in need of the loving care of a mother, and are seeking a home.

Gracie, a Protestant aged three months, is a little beauty and worthy of the best home in Alberta.

Mary, also a Protestant child aged three and a half months, who has the most beautiful violet eyes and a winning smile, is in need of a good Protestant home.

Millie is a bright little girl of two months with all the charms of a healthy, happy baby.

Johnny, aged four months, is a husky coming voter and promises to be a good looking boy. This boy would be a prize winner at any baby show.

Randolph, aged six months, had is longing for a father and mother to take care of him. He is a Protestant boy.

In addition to this group of infants there are two little girls aged ten years, and a little girl aged thirteen years, who are seeking for homes among Protestant families.

A little girl of eleven, a really beautiful child, wants a good Roman Catholic home, and another girl aged ten and a half, Annie who is the making of a lovely woman is also for a Roman Catholic home.

There is no desire to receive application from people who wish to get a child for service only people who are interested in the children and desire to give a child a good start in life are those sought as foster parents.

Any one anxious to adopt into their home any of the above children with the understanding that the child be treated in the same way as their own child, please write or call for a prompt reply to letter addressed to the Superintendent of Neglected Children, Edmonton.

Hillcrest Happenings

Jack Quidan has returned to town after several weeks' visit down East. He is looking better than ever and feels confident of maintaining his enviable reputation as the best all round tennis man in the Pass. He is open to receive challenge from any that can give proof of being able to put up a fairly good game.

Mr. T. L. Ferguson of Dublin, Ireland, was a visitor in town last Saturday and again on Tuesday. Mr. Ferguson states that the crops all along the line are in first class shape and from his extensive knowledge of grain thinks that Canada is about to have another bumper harvest.

The Noble Six thank the anonymous author for the song so kindly dedicated to them. While fully appreciating the honor thus thrust upon them they all are willing and respectfully beg to suggest that the next edition of this popular song be dedicated to "The Passive Protesters", and the title slightly to read "Sour Grapes".

Uncle Charlie happened along last week and was accorded a hearty welcome. This well known character is of the opinion that his home town is getting too slow and he is thinking seriously of coming to Hillcrest. We can assure him that no one ever loses anything around this burg and possessions will all be religiously respected, excepting only the bottled goods.

Apart from all this joshing and friendly little would be silence we think our Burns friend with whom we have had the honor of squabbling once before, is a little off his base when he talks of the dirty mean underhanded unportmanlike and other adjectival ways followed by Hillcrest in winning the cup. Surely there cannot be anything so radically wrong with a team that has gone through the whole season without either putting in a protest or having a protest even registered against them. Can't be, surely. Of course when one has waded through the muck and mire of some six or eight protested game one should be in position to know but we are personally from Missouri. Then again, although living right here all through the entire football season we never heard of the team we are so darn proud to champion "postponing" a game because players under transfer from disbanded teams had not had time to become fully fledged members of the team and thus able to play in the league games. No, siree, the Noble Six were entirely justified in the action they took in the matter and can sing the original song "How to be Sporty" with as much zest as any. In fact, they can do more than sing, they can come mighty near showing all in this locality that they are willing to meet any team half way in all sporting matters. To this effect, and to cinch matters, the Hillcrest Football club hereby issue a challenge to any of the teams competing in the Southern Alberta (Pass) Football League to play any of those clubs on any ground the challengers name—not for the sake of crowing over their victory—any sum from fifty (\$50.00) to three hundred (\$300.00) dollars. All communications referring to this challenge are to be addressed to the secretary of the Hillcrest Football Club, Hillcrest, Alta., and the senders may rest assured of prompt action being taken with all received. Money talks, Burns, and its distinctly up to you. Nuff said.

(Crowd out of last week's home.)
The football game played at Bellevue on Saturday last between Hillcrest and Bellevue attracted a large crowd of spectators. Perhaps the proposed smelter after the game had something to do with it, but Hillcrest was practically depopulated that night. The game was a return for the one played between the same teams at Hillcrest two weeks ago, and it certainly proved things up a

little. For Hillcrest, the victors of the original game met defeat from Bellevue on this occasion to the tune of two to nothing. The game started at 7.30 the ball kicked off by Hillcrest. The boys made a dash for the Bellevue back, backed up by big Jim Lindsay, had something to say and the ball was sent back to the Hillcrest half. Casey happened along at this juncture and after a piece of brainy work sent the ball among the Hillcrest forwards. Both teams seemed to be too much of the same opinion for either to score for both wanted to have the game to themselves. Lindsay, the star goal-kicker, was in great form and had the attack demoralized for the first half on several occasions just playing with the Hillcrest men and laughing at their unsuccessful endeavors to put the ball past him. Little Johnny Grimshaw however was not to be daunted and repeatedly tried to get past James, but with no success. After play had been going on for some time the Bellevue forwards got bold of the ball and with the aid of one of the represent alives of law and order in the wild and woolly west put the ball into the Hillcrest net. This checked the home team considerably for they had anticipated a disgraceful defeat from the winners of the Southern Alberta League cup, and they continued to press the Hillcrest defence. Jones, the stalwart engineer, put up a first class defence game for Hillcrest nobly seconded and thirded by Moorhouse and Wicks. The Bellevue men were now on their mettle and apart from an occasional dash down the field by the Hillcresters in their usual style the home team had the game all their own way. Towards the latter part of the second half another goal was scored for Bellevue, this time being sent past Croother by some player whose name we unfortunately did not learn, but who according to Mr. Lindsay and Wagon Pete, has them all skinned. Shortly after the second goal was scored darkness stole upon us and referee Scotty Houston decided to postpone the rest of the game until after the smelter. Being on the water wagon we returned to Hillcrest and so did the others for the "big smelter" turned out to be the base representations of someone who should be liked by a thousand who espouses upon a shouting—this upon the impeccable authority of our friends, the President of the Order of Gutzaks, whose platitude we are pleased to acknowledge.

To Motor From
Coast to Coast

New Westminster, B.C. Aug. 18.
An attempt to traverse Canada from Halifax to Vancouver is to be made this fall by Mr. Herbert Gilley, of New Westminster, who is making this trip in the interest of the Canadian Highway Association, flying the pennant of that organization on his Canadian-built machine.

It is Mr. Gilley's intention to make Halifax his starting point, although he is a resident of the Pacific Coast. He is where he complete his preparations. Insofar as possible, it is his intention to follow the outlined route of the Canadian Highway for the entire distance.

No man, perhaps, is better acquainted with the roads in the different parts of Canada than Mr. Gilley, for in addition to the many years spent in lumbering enterprises in British Columbia he has a wide knowledge of road conditions in the Eastern Provinces, where he spent the best part of his life. He believes that the most difficult trip for an automobile in all British Columbia is over the Hope Mountains, a journey which has never been attempted. A road is being built over this section at the present time, and it is possible that a temporary way may be made for an automobile, but it is a foregone conclusion that by the time any machine has travelled over the Hope Mountains it will be fit only for the scrap heap or for exhibition purpose.

Should this cross-Canada tour be successfully negotiated, it will reflect considerable credit on the pathfinder, for neither Mr. Gilley nor his brother, G. Emerson Gilley, are practical motor mechanicians and the only knowledge they

have of the interior economy of an automobile is that gained through the use of machines for the past few years.

Valuable data is to be collected during this trip and later embodied in the archives of the Canadian Highway Association, which is to be the custodian of the log of this cross-Canada tour.

A Musical Comedy

A RARE OPPORTUNITY FOR
LIVE INVESTORS
Lake City

Is the name of the Western Terminal Point of the proposed Crow's Nest Pass Electric Railway and is already tapped by the Pass line of the C. P. R., while the G. N. R. has already approached to within a few score of miles and must eventually pass through this admirably located town.

Lake City

Is located by the shore of Crow's Nest Lake, only a few miles east of the provincial boundary between Alberta and British Columbia, and just north of the International line. In reality, it is at the top of Canada where the majestic Rockies tower in serene magnificence over great chasms and numerous fords, reflecting their presence on the waters of this beautiful lake. Here also are afforded the very best tasks for the daring mountain climber and for huntman who desires to contrive the quiet ways of the Rocky Mountain goat, sheep, deer or elk, which are the monarchy thereof. In close proximity are numerous timber, mineral and fuel resources, development of which is now in its initial stages. These resources include gold quartz, coal, iron and pulp wood. Crow's Nest Lake has long been looked upon with promise as an admirable location for health and tourist resorts, and but now this promise is being realized. Plans for hotels, etc. are being arranged, as well as boat houses, and the most modern pleasure yachts will soon glide over the surface of this beautiful lake.

But a few weeks ago lots were placed on the market, and the agents have had their hands full attending to purchasers. Prices run from \$150 up. For further particulars apply to the agents:

Milady's Mirror

Puffy Flesh Under Eyes.

After a period of illness sometimes the flesh will recede about the eyes. This leaves the skin loose and shriveled in appearance. For treatment warm almond oil is excellent. Dip small soft cloths in the oil and as often as convenient during the day and when retiring at night lay them on the loose skin.

The skin about the eyes of a person who is recovering from illness is too delicate to be massaged. The small veins and capillaries are very weak. It becomes one to be extremely careful in this treatment. Foods which are easily digested, wholesome and strengthening are preferable to dairy or fatty dishes, and resting the eyes as often as possible is recommended.

Lack of sufficient sleep and internal arrangement are responsible for the puffiness about the eyes. If you hope for a cure then see to it that internally the system is in an nearly perfect condition as possible. When you are sure of this then you can start outward treatment. First be sure you are having sufficient sleep. Sleep seven to eight hours each night. It is more than enough. The best hours are from 10 p. m. to 6 a. m. The loose flesh and all about the eyes externally may be gently massaged with warm almond oil, and after the eyes are closed twice a week tiny ice bags may be allowed to lie for fifteen minutes on the puffy flesh, and occasionally bathing the parts in cold water will also prove beneficial.

Sun Bath For the Hair.

The soft, bright light and the sunshine of this season of the year are all good for the hair. It is the hot summer sun that is injurious to both skin and scalp. For this reason for months to come a daily sun bath would be a life giving treatment for the scalp as well as it would be for the whole body.

If you have a room into which the sun shines brightly make it your sun parlor for at least an hour during each day. Take all the pieces out of your hair, shake it free and loose every morning or any time through the day and sit in the sun. This will be more beneficial to the scalp than any other tonic.

To get good results from a sun bath all you need to remember is to wear a hair. If they are not the scalp, which needs the tonic, will be untouched and only the hair on top or outside will receive the bath.

The scalp, although seemingly tender, never burns even in the hottest summer days. The girl who has exposed her head, neck and face during weather when playing tennis, etc., will remember that near the head the color of the hair is unchanged, however much the remainder is sun-burned. This is because the scalp oils protect the hair.

Therefore when taking a sun treatment the hair should be loosened, the tresses should be parted and occasionally teased about. Sit in a comfortable chair during the treatment. The hair will be found restful to the nerves as well as the head.

Sleep For Looks.

Sleep is one of the best known preservatives of youth, and every woman should get as much of it as possible.

A short nap after meals is an excellent thing. Take it if you have time. It is a short nap for fifteen minutes.

On getting up you will feel composed and in readiness for any tasks that may await you.

Many women think they cannot afford to rest for a few moments, get to the end of the rest day.

Regular hours are the best of help to keeping one's youth and good looks. Make it your business to get to bed at a reasonable hour every night and try to keep this hour the same.

Early rising will enable you to make up for the hours given to sleep at night.

If you are troubled by sleeplessness and are weary, brush the hair, massage the scalp and face with the face and eyes in warm water.

Then stand before an open window in a heavy dressing gown and take a few deep breaths.

Easily, drink a cup of hot milk and then get into bed, stretch the body out, relax and think of only something pleasant. Sleep should not be long in coming.

Tailor's Hint.

Warm water, little soap and a complexion brush are valuable aids in reducing enlarged pores. The brush should be used vigorously and followed by the application of a good skin food.

For keeping the hands white and soft use a hot water soak, a cream, a cucumber, glycerin, one-half ounce; borax, one teaspoonful; Sassafras, one teaspoonful; Sassafras, one teaspoonful; Sassafras, one teaspoonful.

THE HORSEMAN.

During the last ten years with the growth in the horse industry, the price of horses has increased 75 per cent.

Now, when a horse is sold for \$100,000, it is not a horse of the kind that is sold for \$100,000. It is a horse of the kind that is sold for \$100,000.

"No foot, no horse." It won't take long for an ignorant shaver to ruin the best foot.

Go to the intelligent shaver who knows how to shoe a horse to drive ten miles or more.

A shaver's skill may be caused by poor shoeing or it may be caused by ignorance or carelessness.

Too tight check-reins will often be the cause. Sometimes a harsh bit with a tight check-rein will destroy the balance, and the horse is liable to fall.

A blockish built mare with a large barrel on short legs is likely to produce a better foal than the tall, leggy gelding.

SHEEP MANAGEMENT.

Mistakes in Handling the Flock That Tend to Cut Profits.

In the management of a flock of sheep there are several mistakes usually made, which, when mentioned, first, the temptation to turn them out too early in the spring with the thought of having feed, says W. H. Underhill.

Underhill. If they are turned out too early, the pasture they will get the start of it and fail to obtain the sustenance they should from it the rest of the season, whereas if it had been allowed to get a sufficient start it would have served them much better later in the season.

The early turning in a field to be plowed is a field to be plowed. I feel quite sure the extra vegetable matter that would be turned up if left, rather than to have it plowed off, is worth much more to the land than to the sheep. In any event, this soft, watery grass, while relished by the sheep, has little nourishment in it.

It fills, but does not feed. The animals will get to scouring and lose flesh, while it will take more and better feed to get them back in good condition.

Another mistake is to shear the sheep, as the custom was, in June. If you shear before they get to pasture, they will not grow on grass with the wool, the coarsest feed. The animals will follow a change from dry to green feed, will soil much of their wool about the skirts and which is a loss, for it will cost as much to wash it out as it will bring.

The old idea of the gain from accumulation of wool in warm weather is nonsense. If the weather is all wet it will ruin the wool.

The sheep, although seemingly tender, never burns even in the hottest summer days. The girl who has exposed her head, neck and face during weather when playing tennis, etc., will remember that near the head the color of the hair is unchanged, however much the remainder is sun-burned. This is because the scalp oils protect the hair.

Therefore when taking a sun treatment the hair should be loosened, the tresses should be parted and occasionally teased about. Sit in a comfortable chair during the treatment. The hair will be found restful to the nerves as well as the head.

THE COUNTERSIGN.

No One but Mr. Hennessy Will Draw.

Affairs of banks are public to the many if not to the great majority, for to know the workings of a bank you need either one own, work in one, or have the bundle that will give you the professional look-in.

Small wonder then that Mrs. Mary Hennessy, widow of the late Mr. Hennessy, was appalled when she found that there was any formality about having her money accepted. She was advised to go to let a stranger see your horse.

Go to the intelligent shaver who knows how to shoe a horse to drive ten miles or more.

A shaver's skill may be caused by poor shoeing or it may be caused by ignorance or carelessness.

Too tight check-reins will often be the cause. Sometimes a harsh bit with a tight check-rein will destroy the balance, and the horse is liable to fall.

AN UNPUBLISHED NOVEL.

Burnaby's Handwriting Was So Bad It Could Not Be Read.

It was not at the time of Colonel Burnaby's death that he had left behind him the manuscript of a novel for which there was considerable competition among the publishers.

This is quite true. The manuscript, a bulky paper, was handed to me with discretionary power either to publish it myself or to use it in connection with the proposed biography.

Here a singular and, as it finally proved, a fatal obstacle presented itself. Familiar for many years with Burnaby's handwriting, I could not after diligent endeavor make out more than a sentence here and there on the crowded page of manuscript.

Burnaby's writing was, possibly with the exception of Dean Stanley's, the worst I ever saw. It looked as if before sitting down to write a letter he had pulled a twig out of the hedge, mixed a little blacking and then gone ahead.

I wrote the whole of his "Ride to Khiva" and his "Ride on Horseback Through Asia Minor" with his own hand, but before they reached the printer they were fairly written out by a copyist.

The hapless man used to make out as much as he could, then he would scribble in a few words, and then he would scribble in a few words, and then he would scribble in a few words.

Red Snow.

Red snow is often seen in spring at the head of Alpine glaciers. Scientists used to believe that the hue was due to the presence of innumerable tiny red disk insects, but it is now known to be caused by the microscopic plants which are pink when growing and a deep crimson when in a state of maturity.

Overeating. Don't live to eat, but eat to live. Many of our life are due to overeating to eating the wrong things and to irregular eating.

Stars in Hercules. Even at this distance the astronomer can count 14,000 stars in the famous cluster of Hercules. The advent of our sun with its little retinue of planets into that bunch of blazing humilities would scarcely amount to a local disturbance.

Persian Lamb Skins. The trade in Persian lamb or astrakhan skins centers in Turkistan, and the traders of that country have the entire control of it. They pasture the awe-lamb in immense flocks, and it has been found useless to try to acclimate these animals to any country other than that of their origin.

Horses in Russia. All horse breeding in Russia is under military supervision.

Pullman Conductors. Pullman service rules require that a conductor shall be at least five feet six inches tall and at least twenty-five years old. Other requirements are that he shall have been employed at least five years, with satisfactory recommendations from a former employer.

Soup and Sugar. About half a teaspoonful of ordinary moist sugar rubbed into the hands with a soap lather will clean them and leave them beautiful and smooth.

The Equinox. The word equinox refers to the fact that if the sun crosses the equator when it is exactly east at sunrise and west at sunset the hours of sunlight are equal to those without it. The path of the sun is called the ecliptic, and it crosses the equator twice a day.

Brick-a-brac. In arranging brick-a-brac it should be borne in mind that a few pieces will give more character to a room than a jumble of many new pictures are better than crowded walls.

Buttercups. Buttercups got their names because the people who named them didn't know any better. They thought that the cows ate the buttercups and that was what made the butter yellow in the spring time. It was a pretty idea, and the only fault to find with it is that cows never eat buttercups when they can possibly help it. And you bite one you'll see why. Cows don't like the taste of them any more than you do.

Atlantic Russia. Asiatic Russia's 158 rivers have a total navigable length of 72,558 miles while the domain contains four lakes that can be navigated for 707 miles.

Colored Rain. Red rains are very rare, but in volcanic regions gray rain is comparatively common. Recently there had many showers of this shade. They are caused by the upper atmosphere being full of ash colored volcanic dust from Kilauea. This ash is so fine that it follows the colors of the rain as it falls.

Birds on Strips. The female members of the bird tribe sometimes desert their nests, leaving their eggs to become unhatched, and drive away the males. While the male birds are on the nest, on these occasions, they seem to have no remedy, as the male birds will not attack the females.

Mules in Cuba. In Cuban cities heavy building is done almost exclusively by mules.

Milk in Turkey. Although Turkey is preeminently an agricultural and pastoral country it has but few milk cows, and there is very little in the way of dairy industry. Milk is sold at rather high rates, and is always clean and is very often adulterated.

Rabbit Calenies. In the rabbit colony usually falls to the share of the stronger rabbits to do most of the hardest digging and burrowing. About once in two years they come out in a strike and decline to make the passages which connect all the burrows in a big warren.

Mexican Oysters. Oysters abound along the entire coast, east coast of Mexico; also on the west coast. They are small, but of good flavor.

A Man's Feed. The average man takes five and one-half pounds of food and drink each day, which amounts to nearly one ton of solid and liquid nourishment annually, or about eight million times in a minute, or from 350 to 400 cubic feet of air every day of his existence.

Manhattan Island. Having an average of 50,000 residents to the square mile, Manhattan Island is the most densely populated place in the world.

Manhattan Island. Having an average of 50,000 residents to the square mile, Manhattan Island is the most densely populated place in the world.

Miner Killed in Blairmore Mine

Steve Roboluk, a Foreigner, Succumbs While in Pursuit Of Livelihood

A miner named Steve Roboluk, was accidentally killed in the mine at Blairmore on Wednesday forenoon. It seems that he had been digging when a pile of coal or rock tumbled on him, and before he could be extricated life had fled from him. His body was removed to the morgue where a preliminary examination was held before Coroner Pinkney. An inquest into the cause of the death of Steve Roboluk will be held tomorrow, Friday.

Roboluk was 35 years of age, and leaves a wife and two children residing in Blairmore. Funeral took place this afternoon at the Blairmore cemetery, Rev. Father Deleste officiating.

Injured at Cement Works

James Stewart, employed at the Rocky Mountain Cement Company's plant, received serious injuries on Wednesday morning. His head was severely crushed and for a time it was thought he would not live. At the time of our going to press we learn from the hospital that there is hope for his recovery.

Miner Killed

At Coal Creek

Fernie, B. C., Aug. 19.—Richard Hembro, a Welsh miner, was badly mangled and instantly killed in No. 3 mine, Coal Creek, this afternoon, just before the shift came out of the mine. Hembro was a rope boss and the rope broke letting a trip of several cars back over him. Hembro had not been working in the mines very long and leaves a wife who had just come out from Wales to join him.

Supt. of Grenfell

Mission Convicted

Superintendent C. H. Karnopp, of the Grenfell Seamen's Institute, Newfoundland, was arrested recently upon a deposition made by Dr. Grenfell, charging him with misappropriation of the mission funds to the amount of \$1,000. The action was taken by Dr. Grenfell after the report of the chartered auditors who annually audit the accounts of the mission. Karnopp was found guilty and sentenced to six months with hard labor.

Building of New Church Still a Rife Subject

Rev. Dr. Ferguson, superintendent of Presbyterian missions, meet the management committee of First Presbyterian church on Monday night, for the purpose of discussing church affairs and renewing activities in connection with the erection of the new church.

The managing board decided to take immediate steps in the hope that the new church might be completed by the end of the present year.

One of the most common ailments that hard working people are afflicted with is lame back. Apply Chamberlain's Linctament twice a day and massage the parts thoroughly at each application, and you will get quick relief. For sale by all dealers.

Disposition of Little Church Funds

(Crowded out of our last week's issue)

At Little, on August 4th, a special meeting of the Little session of the Y.P.S.C.E. was held in the school room at 7.30 p.m. W.P. Williams presided. Kenneth L. Dawson acted as secretary for the meeting.

The business before the meeting was the disposition of the funds left on hand in the various societies of the church owing to the closing of the mission. The money was disposed of as follows: The Sunday School funds, amounting to \$27.33 in the hands of the superintendent, W. P. Williams, to be sent to the Rev. T. M. Murray, Coleman, to be held by him until he can decide whether or not it will be needed in Little. Should Little not open up again, he can devote it to any church funds he fit.

It was agreed that the balance of the Ladies Aid Fund, \$8.25, be handed over to F. Anderson, treasurer, to be paid over in full with the amount at present on hand, \$12.00, to the Rev. James Lang for his services as preacher.

The Church Building Fund, to the amount of \$84.60, to be turned over to the Presbyterian church of Canada for three years, at the end of which time, if Little should be opened up again, same to be turned to Little Presbyterian church building fund, and in the event of Little not opening up, after three years the aforesaid money to become the property of the Presbyterian church of Canada.

It was agreed by the members present at this meeting that the funds of the Y.P.S.C.E. be added to the building fund.

The following members were present: W. P. Williams, Frank Anderson, elders, Meedames Searle McDonald and Williams and Miss Williams, Miss Norton, Messrs. Earle Keith and K. L. Dawson.

Signed, W. P. Williams,
Chairman,
K. L. Dawson,
Secretary.

MacLeod Hospital Opening

The formal opening of MacLeod's magnificent new Municipal Hospital, took place last Thursday evening, and was a notable event in the history of the town.

The hospital is an imposing building, brilliantly illuminated, with columns gleaming white, and presents a most attractive appearance.

The interior is spotless. Highly polished hardwood floors and white walls give the various wards a most inviting appearance.

The hospital contains forty-one beds. There are seven private wards, four semi-private wards, and four public wards.

The operating room is on the top floor. All the surgical cases will be treated on this floor.

The lower floor is the medical floor.

Balconies for the convalescent will make getting well a restful dream.

Many visitors visited the building and admired its appointments. Mayor Steadman after making a few brief remarks called upon Premier Sifton who formally declared the hospital open.

The building cost \$40,000, and its appointments are modern in every respect. A long needed want has been supplied and an acquisition to the city that its citizens can justly look upon with pride for years to come.

"Jim" Burrows Gains a Knockout

Maintains Title of "Middleweight Champion of The Crows' Nest Pass."

The boxing match staged at the Blairmore opera house on Saturday night resulted in another victory for champion Burrows.

The accommodation at the opera house was almost taxed, large numbers having arrived from all points between Pincher Creek and Fernie, to witness the re-appearance of Burrows in the ring.

A good fast preliminary was staged at 10.15 between Bennie Rees, of Hillecrest, and Louis Britano, of Bellevue, two swift combatants, who are attracting great interest in the wrestling and pugilistic circles at the present time. Rees is holder of the lightweight wrestling belt for Alberta, while Britano is aspiring for the featherweight championship of Western pugilists.

This bout lasted five rounds, and resulted in a draw, being really the finest exhibition of heart ever witnessed here.

The main figures of the evening entered in the circle at 10.55; both Jim Burrows and Tommy Tapella appearing in good trim.

At the call of time, both stepped and whiled around in quest of an opening. Tapella hit a heavy left jab, which came right ear, but with very little effect. Burrows soon returned with a stiff left under the right jaw, followed by a similar blow with the right under the left jaw which seemed to daze Tapella. Tapella's arms swung open and he started to fall backward, when Burrows dealt the final under the right ear, which sent Tapella to the floor like a flash, his head coming in heavy contact with the hard board. At its count by referee Grainger, Tapella was carried to his chair dazed, where stimulants were administered him by his disappointed admirers. Only 58 seconds elapsed from the call of "time" till the knockout, when Burrows was announced victor.

It was announced that Dominick Marshall had challenged the winner and would meet Burrows on some date to be announced later.

Meeting of Quarterly Official Board

The first meeting of the quarterly official board of Knox Methodist church, for the year 1912-13, was held at the home of J. C. Patmore on Tuesday evening.

The minutes of previous meeting were read and adopted.

It was announced that it would be necessary to raise the sum of \$1,085.00 to defray the current expenses of the year, and that the mission board would be asked for assistance.

A. I. Blais was elected delegate to represent the church at the district meeting to be held at Claresholm next week end.

A very amount of ill health is due to impaired digestion. When the stomach fails to perform its functions properly the whole system becomes deranged. A few doses of Chamberlain's Tablets is all you need. They will strengthen your digestion, invigorate your system, purify your blood, entirely doing away with that terrible feeling due to indigestion. Try it. Many others have been permanently cured—why not you? For sale by all dealers.
